October 20th, 2024

Dear Pablo,

On behalf of the Mathematics department, I'd like to thank you very much for being a panelist at the Research & Internship Panel on Friday, October 11th, 2024. We appreciate your time and effort and are grateful for the thoughtful information that you shared about your involvement with JPL, NASA MINDS and Credit Karma. The audience benefitted from your great advice — both students and faculty — and you likely inspired other students to pursue research experiences.

We recommend listing your participation in the panel on your résumé and website to go along with your other strong contributions to the mathematics department.

Thank you again for helping to make the panel a meaningful experience. Best wishes to you for a productive end-of-semester.

All the best,

Dr. Kevin Murphy & Dr. Aliza Steurer,
co-organizers of the Research & Internship Panel 2024
